Dental Learning Centers is an:

Approved PACE Program provider FAGD/
 MAGD Approved 06/01/2010 to 05/31/2014

Mastering dental photography is a major element in patient education, expanding cosmetic services, treatment planning, legal documentation and laboratory communication.

Step by step procedures and the hands-on nature of the course help make clear the process from photography to presentation.

The program reviews "what you need to know," from camera to presentation.

Learning Objectives:

- Learn how to adjust and test your camera for optimal performance including color calibration, depth of field and exposure
- Learn, hands-on, how to make the seven standard dental photo series.
- From the images that you made, learn to input, organize, edit and create patient education presentations.
- Learn the four essentials for superior laboratory photography.

To register call: (425) 557-7788.

Course Date:
 Friday, June 7, 2013

Time:
 8:30am – 12:30pm
